Reflective

Espace Saint-Luc

This urban park was created by transforming a heat island, roughly 22,000 m² in size, into a cool oasis in the heart of Magog. The site was previously occupied by the town's public works department and waste management centre. You'll find it between Édouard Street East and Brassard Street, near Maurice-Thérroux Park. Local residents helped make the blueprint for Espace Saint-Luc at consultations held in February 2021. Amenities include areas for picnicking, games, urban agriculture and exercise.
